NOTE FOR: Deputy Director for Administration

SUBJECT : Single Delegation of Contracting Authority

Jack:

One of the items in the back of our EAG Planning Book is Number 27, which asks whether economies or improvements might be achieved by establishing a single delegation of contracting authority.

I recall that you raised this as an issue last Fall, but we have postponed consideration of it due to other pressing EAG business. I agree that the EAG should take up the issue. Would it be possible for you to organize an EAG session on the topic in collaboration with the DDS&T by about 1 April?
